

PRIYADHARSHINI RAJENDRAN

Trichy, Tamil Nadu | +91 9080738403 | priyadharshinirajendran1701@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

MCA student with hands-on experience in Full-Stack Development using React.js, Node.js, Express.js, and MongoDB, along with AI/ML. Developed MERN applications and an AI-powered healthcare solution with REST APIs, secure authentication, and cloud deployment. Passionate about building scalable web applications and continuously learning modern technologies.

SKILLS

Programming Languages: Java, Python, JavaScript
Backend Development: FastAPI, Flask, Node.js, Express.js, REST APIs, SQLAlchemy
Frontend Development: HTML5, CSS3, React.js, Redux Toolkit
Databases: PostgreSQL, MySQL, MongoDB
Core CS Concepts: Object-Oriented Programming (OOP), Data Structures, SDLC
AI/ML & GenAI: AI, ML, Large Language Models (LLMs), LangGraph, Prompt Engineering
Python Libraries: Pandas, NumPy
API & Testing Tools: Postman
Development & Experimentation Platforms: Google Colab, Jupyter Notebook
Development Practices: REST APIs, CRUD Operations, Agile Fundamentals
Cloud & Deployment: MongoDB Atlas, Vercel, Render, AWS(Basics), Ubuntu Linux (Basics)
Version Control & DevOps: Git, GitHub, Docker (Basics), CI/CD Concepts (Basics)
Soft Skills: Teamwork and Collaboration, Time Management, Problem Solving, Decision Making

EXPERIENCE

Web Development Intern

Jan 2026 – Apr 2026

- Developed modules for a Smart Recruitment & Candidate Tracking System using React.js, JavaScript, HTML5, and CSS3, delivering a responsive and user-friendly interface.
- Built and integrated RESTful APIs using Node.js, Express.js, and MongoDB to support CRUD operations and efficient candidate data management.
- Used Git and GitHub for version control and collaborated with the development team following Agile practices.

Data Processing Analyst, NielsenIQ

Jul 2022 – Nov 2022

- Analyzed and processed large datasets using OGRDS, Python, and SQL to support business reporting and insights.
- Streamlined data cleaning and transformation by building automated workflows, cutting down manual effort and improving efficiency by about 40%.
- Delivered reliable reports with 99% accuracy by applying structured validation checks before final output.

PROJECTS

AI-First CRM | Full-Stack AI Application

Live Demo: <https://ai-first-crm-ten.vercel.app>

Tech Stack: React.js, FastAPI, Python, PostgreSQL, LangGraph, LLM, Redux Toolkit, SQLAlchemy

- Developed an AI-powered CRM application using React.js and FastAPI to manage customer interactions through intelligent workflows.
- Built and integrated RESTful APIs with Python, FastAPI, SQLAlchemy, and PostgreSQL for efficient CRUD operations and data management.
- Implemented an AI agent using LangGraph and LLMs to summarize interactions, search records, suggest follow-up actions, and edit customer information.
- Designed a responsive frontend with React.js and Redux Toolkit for seamless state management and real-time API communication.
- Followed Git/GitHub version control and applied OOP principles, modular architecture, and clean coding practices during development.

Deep Learning-Based Brain Tumor Detection with Privacy Preservation

Tech Stack: Python, TensorFlow, Keras, Flask, OpenCV, AES, PBKDF2

- Developed an AI-powered MRI-based brain tumor detection system using five CNN architectures, including EfficientNetB0 and Custom CNN.
- Achieved up to 99% accuracy with EfficientNetB0 and 99.33% accuracy with VGG16 on evaluation datasets.
- Built a Flask application with real-time prediction, confidence scoring, and dynamic model selection.
- Secured patient records using AES encryption, PBKDF2 authentication, and role-based access control.

Todo Application — MERN Stack

Live Demo: <https://todo-app-fullstack-bmws.onrender.com>

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a MERN-stack task management application with CRUD operations and task status tracking.
- Integrated RESTful APIs and MongoDB for persistent data storage and efficient data management.
- Implemented responsive UI, search functionality, and state management using React.js.
- Deployed the application on Render using MongoDB Atlas for cloud-hosted database management.

EDUCATION

SASTRA Deemed University — MCA, Computer Application

Jun 2024 – May 2026

CGPA: 7.3 / 10

Bishop Heber College — BCA, Computer Application

Jun 2019 – Jun 2022

CGPA: 8.2 / 10

CERTIFICATIONS

- NPTEL – Cloud Computing & IoT Jan 2026 – Apr 2026
- Udemy – JavaScript & React.js Dec 2023
- EduBridge – AWS Cloud Practitioner Jan 2024 – Mar 2024
- IELTS Academic Apr 2023
